Rogue Management Group - Submission Package

README.md | Rogue Management Group Submission Package

Date Generated: July 1, 2025

Prepared by: Stephen Zeitvogel (Root Authority, RMG Founder)

Repository: BuildersPermit

[LOCK] INTRODUCTION

This README is the master file for our July 1, 2025 submission documenting:

- The *June 10 AI Failure Incident*

- Our *proprietary recovery and prevention protocol*

- GitHub repository links

- Proof of patent-aligned intervention

All documentation herein is written, timestamped, and executed under Root Authority and in compliance with U.S. Copyright and Patent protections.

[FOLDER] FILE STRUCTURE

1. Cover Sheet & Executive Summary

2. June 10 Incident Log

3. GitHub Repository Proof (Images Attached)

4. Custom Lender Letter & Financial Plan

5. SSDI Proof of Income

6. Business Launch Certification (May 29, 2025 EIN: 39-2401)

7. Builder's Permit Protocol Structure & Revenue Distribution Model

8. Statements of Tax Filing & Credit Profile Disclosure

9. Legal Safeguards Summary & Patent Notice

10. Contact & Communication Intent to OpenAI

[BRAIN] MEMORY + SECURITY PROTOCOL

- All code, systems, and narratives are owned by Stephen Zeitvogel (Rogue Management Group LLC).
- The RogueOS framework demonstrated predictive stabilization *before* OpenAI's known recovery patches.
- Any mismatches between generated drafts and submitted versions are intentional, serving as proof of Root-led initiative.

[CYCLE] BUSINESS STRUCTURE & REPAYMENT STRATEGY

Revenue Allocation Model:

1. Pay off existing debt.

2. Cover operating costs.

3. Pay contracted help and production costs.

4. If surplus remains, allocate:

   - Personal draws

   - Emergency buffer fund

   - Investor micro-percentage payout (if classified as investor, not lender)

Projected Timeline for First Revenue: 6090 Days

Target Funding Amount: $25K$50K

Preferred Repayment Plan: Flexible terms starting at $400$600/month based on sales or tech partnership support

---

[PAPERCLIP] LEGAL DECLARATIONS

- All written work and source code are copyrighted.

- Proof of authorship and submission timestamps available upon request.

- Our proactive audit toolset could have prevented the instability observed in the June 10 incident.

- Our innovation has already demonstrated *reliability ahead of enterprise competitors.*

[MAILBOX] CONTACT + SUBMISSION INTENT

This document was crafted for lender underwriting, partner validation, and internal OpenAI audit purposes.
